Dear Commissioner Henney:

We are writing to request your support for legislation that will require clear labeling of all genetically engineered (GE) foods (Docket No. ooP-1211/CP1).

We believe that as American consumers, we deserve the right to make an informed choice when buying foods. Without labeling information, we will not be able to tell the difference between a genetically engineered and a non-GE product.

We strongly urge the FDA, USDA and manufacturers to suspend the further introduction of genetically engineered crops to the market without clear labeling guidelines and long-term environmental and human safety testing.

Please let us know if you intend to support this legislation. Thank you.

Sincerely,
